Colleagues:

I am happy to pass on this good news from Bill Abt! While problem solving the Carthage parking predicament is ongoing, we shall soon be able to take advantage of the first strategy to be implemented. As you know, there are currently 40 "Visitor" spaces in I-Lot south of JAC. **Within the next week or so one of the 2 "Visitor" rows in I-Lot (the row toward the center of the lot, 20 spaces) will be redesignated "Faculty/Staff."**

This effort to alleviate some immediate faculty parking concerns is interwoven with an attempt to alleviate student parking too, and 20 faculty spaces at the end of the "Faculty/Staff" row toward Sheridan Road will revert to student spaces. Bill's only concern is that we be aware that on those several times of the year when special events take place at school, the redesignated rows will TEMPORARILY revert to make space for guests.

On behalf of the faculty, I would like to thank Bill and the administration for taking this step to address faculty concerns!
